

Khaled Baalbaki

81 300 740 | baalbakikhaled7@gmail

SUMMARY (optional)

Highly motivated and results-oriented Software Developer with a strong foundation in java, C#, ASP.NET Core, Python, and SQL. Possesses experience in full-stack development, implementing authentication, data management functionalities, and API integration. Skilled in problem-solving and thrives in collaborative, fast-paced environments.

EXPERIENCE

Employer, Zahle,

Web Developer Intern | Coding&Create

September - December 2023

- Designed and implemented robust authentication and authorization systems, enhancing data security and access control.
- Streamlined data management processes by developing efficient functionalities, resulting in improved system performance.
- Identified and resolved user interface discrepancies, collaborating effectively with the team to ensure a seamless user experience.

EDUCATION

If You Have an Advance Degree

American University of Science and Technology (AUST), Zahle

Bachelor of Science in Computer Science

6, 2024

GPA: 3.65

PROFESSIONAL SKILLS

- Languages: Java, Python, C#, JavaScript, SQL.
- Database: Microsoft SQL Server, MySQL.
- Vision Control: Git.
- Cloud Deployment: PythonAnywhere.

ADDITIONAL INFORMATION

Projects

- Pharmacy Management System (Personal Project)
  - Implemented authentication and authorization features for secure access.
  - Developed comprehensive CRUD (Create, Read, Update, Delete) functionalities utilizing API and servlets to seamlessly manage medication data in the MySQL database.
  - Crafted a user-friendly frontend using HTML and JSP, offering an intuitive interface for efficient user interaction and data presentation.
- Movie Recommendation System (Personal Project)
  - Utilized scikit-learn library for content-based movie recommendations.
  - Designed and implemented recommendation algorithms for personalized suggestions.
- Plant Health App (University Project)
  - Created a backend utilizing APIs from OpenAI and PlantID for plant identification and health insights.
  - Developed a RESTful API using Flask for efficient data communication.
  - Deployed the application on Heroku for cloud-based accessibility.

#### Certificates

- Cisco CCNA 1: Introduction to Networks
- Cisco CCNA 2: Routing and Switching Essentials
- Cisco CCNA 3: Scaling Networks
