- English

- Arabic

- Frensh

ABOUT ME

Highly motivated and results-oriented Software Developer with a strong foundation in C#, ASP.NET Core, Python, and SQL. Possesses experience in full-stack development, implementing authentication, data management functionalities, and API integration. Skilled in problem-solving and thrives in collaborative, fast-paced environments.

WORK EXPERIENCE

Software Developer Intern, MegaBee
Sep 2023 - Dec 2023

• Contributed to enhancing security measures and optimizing data management in ASP.NET CORE.
• Worked closely with the team to troubleshoot and improve user interface, enriching overall user experience.

EDUCATION

Bachelor of Science in Computer Science, American University of Science and Technology (AUST)
2024
GPA: 3.65

PROJECTS

Restaurant Management System (Personal Project)
- Implemented authentication and authorization features for secure access.
- Developed CRUD functionalities for menu items and table management.
- Designed and implemented a user-friendly table reservation system.

Movie Recommendation System (Personal Project)
- Utilized scikit-learn library for content-based movie recommendations.
- Designed and implemented recommendation algorithms for personalized suggestions.

Plant Health App (University Project)
- Created a backend utilizing APIs from OpenAI and PlantID for plant identification and health insights.
- Developed a RESTful API using Flask for efficient data communication and deploy it on pythonanywhere for cloud-based accessibility.

CERTIFICATES

Cisco CCNA 1: Introduction to Networks
Apr 2023

Cisco CCNA 2: Routing and Switching Essentials
Jun 2023

Cisco CCNA 3: Scaling Networks
Dec 2023
